

Check Scanner Conversion – WebScan Installation

(For customers converting from EFT Redeposit to Business eBanking)

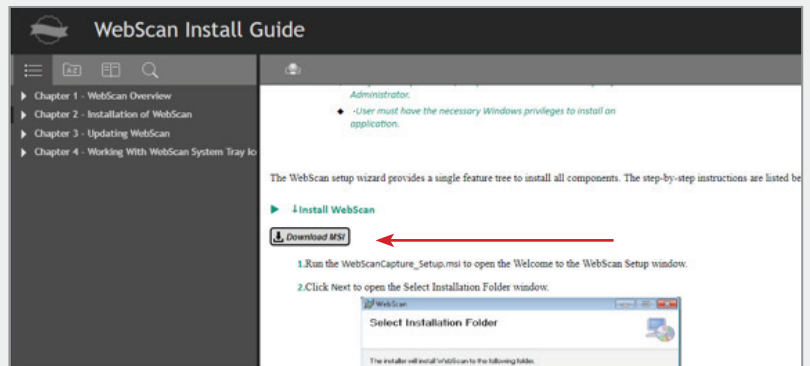

WebScan installation should be completed in advance of **August 12** as it will not cause interference with live scanning.

For WebScan Installation

1. Go to <https://direct2.imagedepositgateway.com/WebScan/Documentation/0769/>
2. Select [Skip to WebScan Installation.](#)

3. Click **Download MSI.**

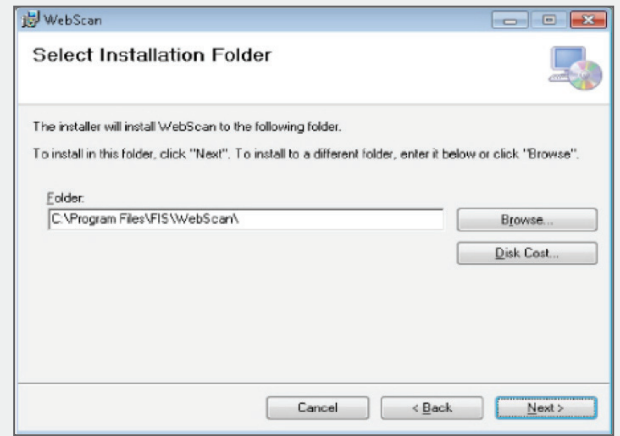

4. Download the Microsoft Visual C++ program, and follow on-screen instructions.
5. Run the **WebScanCapture_Setup.msi** to open the Welcome to the WebScan Setup window.

Check Scanner Conversion – WebScan Installation

6. Click **Next** to open the Select Installation Folder window.
7. If you want to select where to install the software, click **Browse** and choose the location; otherwise keep the default location. When finished, click **Next** to open the Confirm Installation window.
8. To begin installation, click **Next**.

9. When notified that the installation process is complete, click **Next**.

10. Depending on the workstation's User Account Control (UAC) setup, you may be prompted with a confirmation window. If so, click **Yes** to continue.

Check Scanner Conversion – WebScan Installation

11. Enter the following parameters on the WebScan - Post-Install Config window.
12. If you want WebScan to automatically check for updates, select the **Check for Updates** check box.
13. When this check box is not selected, you must manually check for updates.
14. In the Update URL field, specify the URL WebScan will use to check for new updates and to download from when updates are available.
15. Enter in the following information to the corresponding fields:

Update URL:

<https://direct2.imagedepositgateway.com/WebScan/Update/0769>

Remote Domain URL:

<https://direct2.imagedepositgateway.com>

16. Enter the URL of the websites which can connect to WebScan application in the Remote Domain URL field and click **Add Domain**. Click the **Remove Selected** button to remove a selected remote domain URL from the list.
17. If you do not know the URL to use, contact your system administrator or WebScan provider.
18. Click **Next** to view the installation validation window. Click **OK** to open the Installation Complete window.
